

Please do not threaten the WI No Call List. This has been an amazing tool to tell companies you don't want to be harrassed at your home. If companies want to contact individuals they need to return to sending out mailings not calling and preying on people who want some peace and quiet in their own homes or convincing elderly people to part with their money because they may not be savvy in the way some of these companies do business. The phone in my home is one that I pay for and if I want someone to call me I will give them my number, companies should not be allowed to buy it and communications companies should be banned from selling the information.
